Ponzi, Mushroom Millionaire Draws Five Year Jail Sentence

**Plead Guilty To Using Mail To De-
fraud After Urgent Pleading
By His Wife**

DECLARES HE WILL REPAY ALL

Boston, Mass., Nov. 30.—The final chapter in the career of Charles Ponzi "bushel basket millionaire" was written today when Judge Clarence Hale in the United States district court sentenced the financial wizard to five years in Plymouth jail after he pleaded guilty to using the mails to defraud. It was only after Mrs. Rose Ponzi, the "wizard's" wife, pleaded with him that he consented to plead guilty. He told the court that if he was given his liberty he would in a few months pay the claims against him. He declared that it never entered his mind that his financial schemes would bring ruin to hundreds of men and women who turned their hard earned savings into his shabby little office in the expectation of receiving a big return. He appeared in court wearing the broad smile which made him famous. He was clad immaculately in a brown suit and black overcoat. The lines of worry which had lined his face when he was arrested had disappeared. He was cheerful and confident.

AMERICA THOUGH NOT A LEAGUE MEMBER GETS HEARING AT ASSEMBLY

Geneva, Nov. 30.—America's voice was heard at the League of Nations assembly when Secretary Colby's Mesopotamian note to Great Britain caused wide comment. The secretary's note demanding recognition of the commercial rights of countries in the mandate territory was greeted warmly by the neutral states without mandates. It is believed that America's note has added strength to the delegations seeking to air the activities of the league's council in disposing of the mandates over the German colonies. It was believed that some of the mandates would be considered in the assembly today although it may be delayed. Other questions expected to arise soon was the Armenian situation and the admission of the former triple alliance powers.

BUSY THREE DAYS FOR GOVERNORS IN CONVENTION

HARRISBURG, Pa., Nov. 30.—Six important problems confronting the states at the present time were scheduled to be taken up at the governors' conference here, December 1, 2 and 3. About 35 governors and from 10 to 15 governors-elect are expected to be present.

Federal encroachment on state authority and functions are to be discussed by Governors Robert A. Cooper of South Carolina and Robert D. Carey of Wyoming in papers on "The Decentralization of Governmental Functions and Activities."

Governor Frank O. Lowden, of Illinois and Gov. Percival Clement, of Vermont have also been asked by Miles C. Riley, secretary of the conference, to prepare papers on the same topic.

State railroad commissioners, who are vitally interested in the question of federal usurpation of state authority on account of the powers granted the interstate commerce commission, will present a report through their national organization. Members of the commission on uniform state laws will also have something to say on the subject.

The report of the Lockwood commission in New York state, charging combines and intrigues among contractors, material men, and labor leaders and alleging the existence of "graft on a royal scale" will undoubtedly be taken up by Gov. Alfred E. Smith of New York in a discussion of "Housing Problems and Ways and Means of Promoting Home Ownership." The housing problem is particularly acute in urban districts, and the revelations made to the investigators furnish one clue to the reasons for the crisis.

The rural phase of the housing problem will be an important part of a discussion on the South Dakota rural credit law by Gov. Peter Norbeck of that state. The South Da-

Allen-Fabiana Company Pleased 'Most Critical'

A well filled auditorium greeted the Allen-Fabiana Concert company at the High school last evening and those present were treated to one of the finest musical and aesthetic dancing entertainments that has ever been the privilege of Clearfield people to hear and see.

It would be hard indeed to select the brightest star of the cast for every member was an artist of the first quality. From the opening number to the last, round after round of applause greeted each artist in attestation of their ability.

That Mile ed Lara possesses a charming voice, was evident from the first note of her opening song. It is a voice that pleases with its full tone and her technique was excellent.

Messrs. Ottone, Kilby and Perriss held the audience enthralled with their rendition of difficult passages from the various operas and during the evening it was requested that Mr. Kilby sing, "Old Black Joe" which entirely captivated everyone.

The dancing of Mile. Margot Ladd was one of the outstanding features of the evening. Her interpretation of the rhythmic thru the poetry of motion was beautiful to behold, especially in her "Dance of the Two Daggers."

This concert was given under the auspices of the newly formed Music Club and they are to be congratulated on their first offering.

CHRISTMAS SEALS ARE NOW ON SALE BUY ALL YOU CAN

Tuberculosis Christmas Seals and Health Bonds were formally placed on sale today in Pennsylvania and throughout the nation.

Seals sell for one cent each; health bonds run from \$5.00 to \$1,000.00.

Local citizen tuberculosis committees retain more than three-fourths of the money they raise through this sale to carry on their work of lessening and preventing tuberculosis.

This official Christmas Seal, which was originated in 1907, was first sold in Pennsylvania. This year's seal,

although it does not bear the Red Cross name, is the original seal and is recognized as the only Seal by government agencies and officials and by all social service agencies.

The 1920 Seal bears the usual picture of Santa Claus. Old Chris is holding on his shoulders a child dressed in green who is bearing aloft the double bared cross, which is the emblem of tuberculosis workers. This sticker carries the message "Merry Christmas 1920" and "Healthy New Year."

Seals are in the form of a stamp and are placed on letters and packages during the holiday season as tokens of better health and good cheer. They are not a substitute for postage.

EVERY PURCHASE OF A SEAL OR A HEALTH BOND IS A CHRISTMAS GIFT TO THE HEALTH OF YOUR COMMUNITY.

ROGER HAMPSON OF PUNXSUTAWNEY DIES

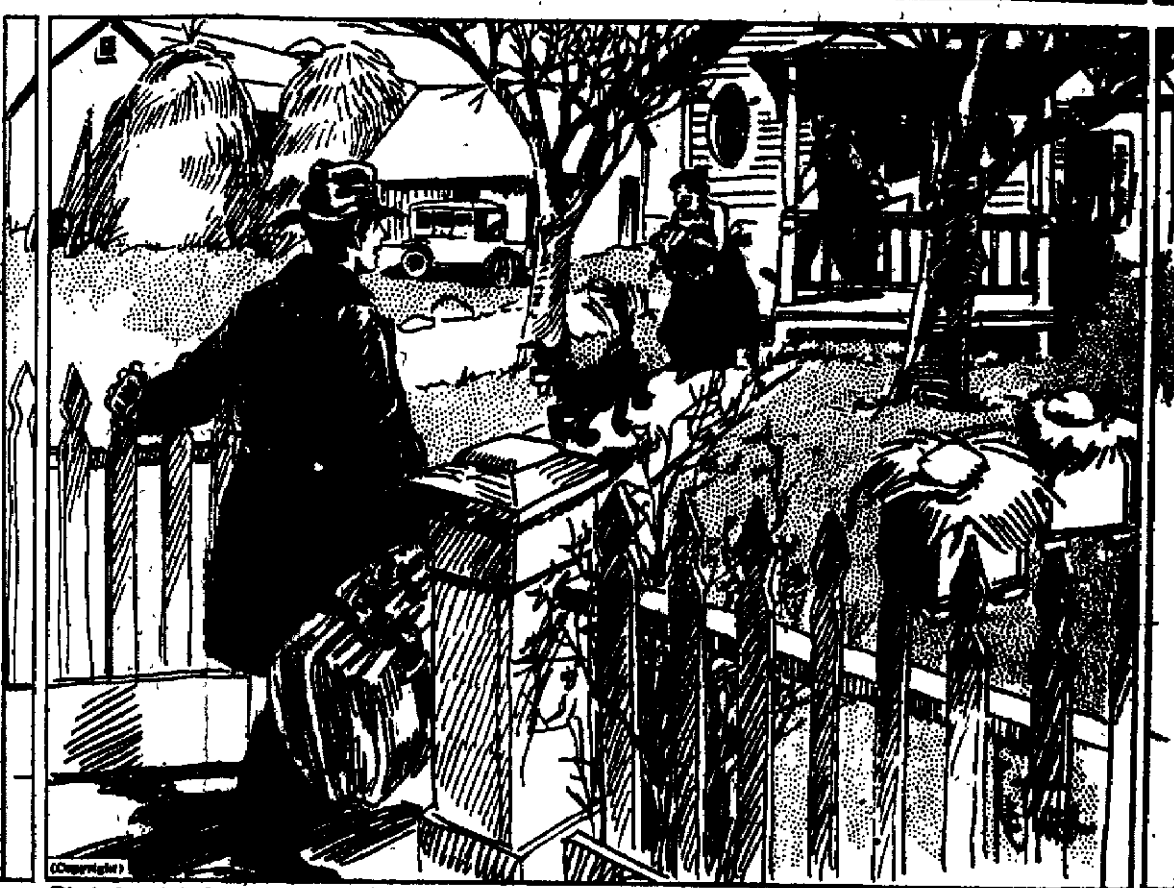

Roger Hampson one of the most highly respected and influential citizens of Punxsutawney died at 8:30 o'clock Saturday evening in the Punxsutawney hospital of diabetes and chronic nephritis, at the age of 70 years.

The deceased had been ill for about three weeks, but his condition was not considered alarming by his family and he ate Thanksgiving dinner with them. Saturday he became worse and was hurried to the hospital, but he gradually sank and passed away with his family at his bedside. He was conscious until the last.

Mr. Hampson was born near Manchester, England, a son of Mr. and Mrs. Thomas Hampson, deceased, and came to this country in 1870. He went to school a couple of years following his coming to the United States then accepted employment in the mines. He was soon made a mine inspector in Pennsylvania which position he held for 30 years.

SINN FEIN ATTACKERS APPEAR IN UNIFORM. MEANS WAR ON ENGLAND

London, Nov. 30.—That the Sinn Fein parliament has formally declared a state of war on England was the belief today of many officials of the Irish office. The Irish office has no definite information that war has been declared, but Dail Eirann, of the Sinn Fein Parliament, has called a meeting to prepare, The Dublin murder, and the police patrol culminating in the slaying of 16 in Kilmichael were accepted here as the work of men who regarded themselves as carrying on a legalized war. The Sinn Feinners who surrounded the two police lorries at Kilmichael, according to reports, wore uniforms and steel helmets. This was regarded as an attempt to carry out the regulations of civilized warfare. Never before in such attacks have the Sinn Fein wore uniforms.

MORRISDALE STORE BURNED AT LOSS OF OVER \$70,000

Fire totally destroyed the big general merchandising establishment owned by the Morrisdale Coal Company, at Morrisdale, Saturday evening. The blaze, started by an exploding oil stove, was discovered about 5:04, and so fiercely did it burn that by 7:45 not a thing was left but white hot ashes, twisted iron and pipes and such metal articles as the flames could not wholly consume. The heat from the burning building was sufficient to set the small buildings across the roadway on fire, and they too were burned down. One was the meat market conducted by John Mellin, and the company's supply house and ice house. The dwelling on the other side of the store jointly occupied by Charles B. Maxwell, general manager of the Morrisdale operations, and Charles S. Penypacker, was saved, though the windows were nearly all broken by the intense heat and the paint blistered and burned. Windows in the coal office building nearby were also cracked by the heat.

Mr. Maxwell saw the oil stove blow up. He was in his automobile, on his way home, and through the window of the office of Mr. Penypacker in the store building noticed the flareup of light. He at once reached the correct conclusion that the oil heater had exploded. Hurrying to the store he found Mr. Penypacker, who had only a couple of minutes before left the office, and with other employees were preparing to close up the building for the day. They rushed to the office apartments, then filled with dense smoke and flames which drove them back into the store. In an inconceivably short period the fire reached other parts of the building, the smoke preventing the employees and others who had gathered from making any effective effort to stop the flames.

A telephone call came to the Philadelphia Fire department and the Hope motor pumper and firemen were sent. (Continued On Page Eight.)

VETERANS OF WIRE CAGE IN LEGION DON UNIFORMS

The veteran basket ball players of the American Legion held an enthusiastic meeting last evening in the Legion rooms and decided to start the ball (basket ball) rolling.

Some good candidates for the team are:

Jim Mitchell who won a C with the local C. H. S. team for four consecutive years in '08, '09, '10 and '11 having been captain the two last years. Jimmy also played forward on the Y. M. C. A. team two years and with Penn.

Clark Mitchell, forward, starred with the C. H. S. in '13, '14, '15 and '16 and through his ability has been recognized as an official referee.

Les Bowes, guard, played with H. S. in '17 and was mighty fast. Wayne Johnson, guard, will also be with the team.

Fluck, center, a new man played with the championship team in the West Philadelphia Church League.

Many other good players will make a bid for the team. First practice will be held tomorrow, Wednesday, evening, on the high school floors and all ex-service basket ball players are asked to be present.

The team will be strictly all Legion men.

MISS BESSIE ROSEBERRY DIES

Miss Bessie M. Roseberry of Dorey street died this afternoon after having submitted to surgical treatment in hopes of obtaining relief from a malady which has caused her a great deal of trouble recently. Miss Roseberry was employed here by the Pennsylvania Railroad as a clerk in the freight station. She was a lady of sterling Christian qualities, a zealous worker in the Presbyterian church and her sudden demise will be a shock to a legion of friends.

Mr. and Mrs. Joel Cupples, of Lorain, Ohio, are visiting her father Michael Bannan on Clearfield street.

HARDING'S MAJORITY IN PENNSYLVANIA IS 715,013

HARRISBURG, Nov. 27.—A total of 1,251,248 votes was cast for presidential electors at the Nov. 2 election in Pennsylvania, according to the official vote of the sixty-seven counties computed yesterday at the department of the secretary of the commonwealth. In 1916 there were 1,297,250 votes cast, showing that even with women having the right to vote many persons in Pennsylvania did not exercise the right to ballot. The increase over the 1916 presidential vote was 538,956.

The majority of Harding over Cox was 715,013 and over all candidates, 585,162.

The official vote, according to presidential electors, shows the following: Republican, 1,218,215; Democrat, 503,202; Socialist, 70,021; Prohibition, 42,812; Industrialist, 753; Labor, 15,642, and Single Tax, 803.

The detail of the official vote shows:

Judge of the Supreme Court Sylvester B. Sadler, 669,578. D. J. Snyder, 4,425. Scattering, 1,138.

Judge of the Superior Court William B. Linn, 589,324. W. E. Porter, 3,495. Scattering, 1,815.

United States Senator Boies Penrose, Repub. 1,067,900. John A. Farrell, Democrat, 434,362. Leah Cobb Marion, Pro., 158,421. Robert J. Wheeler, Labor 27,592. Joseph E. Jennings, Single Tax, 2,110. Scattering, 65.

State Treasurer Charles A. Snyder, Rep. 1,149,245. Peter A. Elssesser, Dem. 472,896. (Continued On Page Five.)

GLEN RICHEY LAU MAY LOSE WRIST FROM SHOT WOUND

Thomas Evans, aged 17, of Glen Richey, is a patient in the Clearfield Hospital suffering from a serious gun shot wound, the result of an accident which occurred to him while hunting near that place last evening. Young Evans in company with Albert Johnson, another youth, was hunting over near No. 18 mine, back of Irishtown yesterday afternoon, when Evans' shot gun was accidentally discharged, the load of shot tearing through his left wrist.

The injured lad was assisted over to No. 18 by his companion where Dr. Stahlberg was summoned and ministered first aid. He was then taken to the hospital where every effort is being made to save his hand, but amputation it is feared will be necessary.

Miss Bess Roseberry died at the Clearfield Hospital this morning at 11:30. Funeral notice later.

LITTLE EDDIE IN THE RING

By HENRY L. FARRAR.
(United Press Staff Correspondent)
NEW YORK, Nov. 30.—Joe Dempsey, king of the rough territory, was in the center of a fighting group of outside boxing fans at the recent conference of the National Amateur Athletic Union.

"Called you up at eleven o'clock last night but couldn't get you," Joe of the surface said to him.

"Eleven o'clock?" he asked.

"No wonder you couldn't get me. I'm between the sheets, sleeping at ten."

He wasn't talking for publicity—he doesn't need a press agent. He was telling the truth.

From personal observation Dempsey is an unusual looking champion. Several years' constant head; temptation hasn't failed him. He's the same big, steady, reliable, the same pleasant smile that warms his friends by the fire in the home. FISHING LICENSE IS NECESSARY TO HAVE FUN

A nominal fee paid for a license by every devotee of the sport and the right of the Pennsylvania would furnish a considerable sum for their protection and restocking, which now has become of an inadequate appropriation of state funds.

There is a natural reaction against any restriction upon what is generally regarded as the pleasure right of a small boy, and of the larger boy of later years, to go to the sunny tribe. But if the restrictive is to be the continuation of our small fish, annually for the sake of propagation of the fish, of the ultimate loss of the sport through their continuous neglect and by the pollution of the streams, the choice of the great majority of the fishermen would be in favor of the fee.

The enforcement of the laws against the pollution of streams is "merely a state duty, and for reasons other than the protection of the fish, but the work of restocking and propagation, which must displace such enforcement if the streams are to be restored to their former attractiveness for the tribe of fishes is an enterprise to which every individual fisherman ought to be willing to contribute his mite. — Williams Bulletin.

CAPT. CLARK'S SISTER DIES

Miss Mary Clark, sister of Capt. Thomas E. Clark and also brother, well known Clearfielders, died at the family home in Pottsville on Saturday evening last. The funeral took place this afternoon.

William P. Carns is laid up at the home of his sister Mrs. Ashley Shaw on West Front street suffering from an infected knee which followed a slight accident while at work in the mines.

AMERICA'S REAL NEED

President-elect Harding is at his best when he preaches the homely virtues. He is fine at emphasizing the paramount importance of individual responsibility for the nation's continued welfare and progress. And this is a thing which cannot be emphasized too much. Thrift, honesty and common sense in the individual are the essentials; political policies are secondary and, with the essentials provided, will take care of themselves. Many persons do not seem to realize this. They would rather demand that a law be passed. Every thriftless, dishonest or foolish man is helping drag his country down into the slough, however sound the public policies he advocates. Every thoughtful, earnest, busy, honorable man is helping raise her up. President-elect Harding doubtless, for the moment at least, has more influence with the rank and file of Americans than any other man. It is good to find him pounding home these simple, helpful, needed truths so often. —Ohio State Journal.

A PREDICTION COME TRUE

About six months after Governor William C. Sproul took office The Progress editorially remarked that a coterie of Pennsylvania politicians who were shouting "Hurrah for Sproul" were whispering curses and had daggers in their belts which would be unsheathed at the first opportunity.

Many times since then these same gentlemen have let their anger get a little the best of them and unwittingly exposed their feelings. Fortunately the governor has had both the time and opportunity to know who are his friends and who are his enemies.

The latest show of antagonism and jealousy towards the governor is the attempt to prevent the governor from having any voice in the organization of the next legislature. Samuel A. Whitaker of Phoenixville, a war veteran, believed to be the choice of Sproul for Speaker, is to be opposed by Robert S. Spangler, of York, Pa., speaker at the last session. However, the fight does not center on these two men as to personalities but rather on the forces back of them. The whole question at issue is the prestige of Joseph R. Grundy, of Bristol, Pa., within the councils of the Republican state organization. Mr. Spangler is recognized as the Grundy candidate. Those who do not follow state politics closely will probably take little interest in this purely party scrap, but every Republican who believes in this party and keeping it free and unencumbered to deleterious influences owes it to himself and his party to give the present political situation in this state some attention. Mr. Grundy, like many others, stands high in our party councils only because he has within his grasp some very loose purse strings. He seeks to buy an underhold on the Republican party in Pennsylvania and only the most loyal support from honest, earnest Republicans of Governor Sproul will keep him from attaining his desire. It is high time that the duly elected party officers be permitted to conduct party affairs instead of being mere figureheads and pawns while those with fat pocketbooks exploit the party to the selfish interests of themselves and the interests they represent.

Our governor had a wonderful program to put into execution when he took office. He had the heartiest co-operation of the legislature and all the attempts to thwart his efforts were in vain. He is carrying out all the pledges he made. His recommendations were accepted and enacted into measures. Notable among recommendations were that the state should quickly ratify the 18th amendment, that we should immediately grant suffrage to women, that we should make our highways and our schools second to none, that workmen should be the beneficiaries of greater protection from the state. Some of these things "have arrived," others are being brought to fruition. It was in his championship of woman suffrage, state wide prohibition and a more liberal compensation law that the governor called down upon himself the wrath of those who now seek to curb his power and general popularity. The Progress does not take much stock in such phrases as "special interests," "predatory interests," etc., as these are in the main the product of the yellow journalists, but in the case of Mr. Grundy the case is all too plain that of class interest.

The governor did not shoot his whole wad in his inaugural broadside. He is big and progressive enough to see what is needed to keep the Keystone state forging ahead and he has already mapped out a program for the next legislature which will even eclipse the progress of the past two years. One of his big recommendations will be the passage of a state prohibition enforcement act. Probably the second biggest item will be advancement of our public schools with special attention to rural education.

To bring about the completion of the great work started and cause the beginning of contemplated work Governor Sproul must have the support of every loyal Republican. We know that he will have it in Clearfield county and that Clearfield county people will expect their representatives, De Hass, Phillips and Miller, to stand shoulder to shoulder with Mr. Sproul. He has a right to a voice in the organization of the House, far more than Mr. Grundy who holds no mandate from the people.

State Chairman Crow is standing loyally back of Governor Sproul, but there are wheels within wheels, and these two stalwart Republicans need the support of every one who wants an untrammelled, unfettered Republican party.

We repeat what we said in the editorial referred to in the first paragraph, "Clearfield county is back of Governor Sproul and State Chairman Crow."

Bread from Stones

National Crop Improvement Service 1

UNCLE Henry Wallace used to say that you cannot expect to remove fertility year after year from the soil without renewing it, any more than you could keep on drawing money out of the bank without making a deposit. He used to go up and down the land deprecating the man who mined his soil and called it farming.

For Cyril G. Hopkins belonged to the same school and single handed he crusaded against soil robbery by advocating building up of a permanent soil fertility by the use of rock phosphates.

He demonstrated on three hundred acres of very poor land in Southern Illinois that he could by using manure, limestone and rock phosphate, produce 35½ bushels of wheat per acre, whereas on his check plots where farm manure alone was used, he got but 11½ bushels.

He taught that our nitrogen supply can be taken from the air and that we generally have enough potash, but that we must replenish phosphates.

This can be done in several ways. A finely ground raw rock phosphate will not give much available fertility the first year but the soil can

gradually be built up by its use. More immediately profitable is an acid phosphate which runs about 16 per cent available phosphate, and now comes the cheering news that our copper mining companies are utilizing their waste sulphuric acid by treating phosphate rock and preparing a treble super phosphate which will run about 46 to 48 per cent or three times the strength of ordinarily prepared acid phosphates.

This being in the West, will prove a God-send to wheat farmers who are looking for a way out of their rust and scab dilemma. If this phosphate, which should cost about three dollars per acre, will make a strong sturdy plant which will resist rust, its importance cannot be over-estimated. Experiments are being made in all of the stations to locate a wheat which will be rust resistant and every possible aid is being given to this wheat to mature before the rust period.

The time will soon come when it will be a crime in law as it is already a crime in fact to rob the soil and the state has a perfect right to insist that every man who removes fertility from the soil shall restore it and add a liberal percentage for posterity.

Fish Unable to Swim.

It is a fact that there are fish which cannot swim. A Brazilian fish, called the malha, can only crawl, walk or hop. It has a long, upturned snout, and resembles to some extent a toad. The anterior fins of the malha are quite small and are not suitable for use in the water. They are in reality thin pads which are of no service for swimming.—Dearborn Independent.

THE GIRL SCOUTS

It is a cause for rejoicing that the womanhood of this nation has been enfranchised. It is a cause for congratulation that through the Girl Scouts the mothers of tomorrow may be fitted adequately to meet their new duties and their new responsibilities.

Girl Scouts find in their organization a worthy ideal. It develops their innate loyalty and stimulates their noblest enthusiasm. It provides an agency of organized work, of organized play and of organized athletics. Its appeal should be as strong to the father and mother as to the daughter. In its present campaign it has my heartiest good wishes.

James M. Cox

THE GIRL SCOUTS

The triple aim of the Girl Scout movement: home-making, health-getting and citizenship, is an ideal of womanhood to which I am delighted to give my entire approval and support.

The woman of the future has tremendous opportunities before her. She will desire to prepare herself for them to reap full advantage.

The Girl Scout movement with its comprehensive training in every branch of home-making, baby care and home economics, in its study of the ideals and duties of citizenship, in the steady upbuilding of the health of the girls through the Scout camp life, games and exercises, and in its well rounded educational program, is most valuable.

Samuel Harding

HERE is something on which both Presidential candidates agree! Just think of it! Their worst enemies could not charge Senator Harding with evasion or Governor Cox with being too frank on this plank. The 82,176 Girl Scouts in the United States, Hawaii, Porto Rico and Alaska are going to have a campaign from November 6th to November 15th, a dollar membership campaign by which they hope to raise \$1,000,000. Both candidates for the Presidency think every girl in the United States has a right to organized work and organized play which is what the Girl Scouts stand for. Both candidates would like to see American girls, as well as American boys, develop the "gang" spirit. Both candidates would like to see them capable equally of saving a life or swimming a mile or making a pie! But let the candidates speak for themselves!

But It Pays "Anyhow."

Home For The Holidays

Well chosen, modern furniture produces a charm and cheerfulness in the home that nothing else can supply. There is a sentimental something about your home during the holidays that attracts us all.

And bright new furniture here and there throughout the house helps a lot. Our showing of new and attractive and very beautiful design this season will surprise you. Also please you.

And prices are very, very reasonable.

Finding the
Book when
you want it—

A GUNN
Sectional Bookcase

Settles this question for always. Its use not only allows you to place your hand upon a desired book at once, but you will find it in a clean and sanitary condition, for no dust or dirt penetrates the roller bearing doors of a GUNN Sectional Bookcase. They are real systematizers and they make "system" a family word. And their cost is so little that no one should be without a "Gunn". They are made in Grand Rapids, the furniture city of the world. We guarantee them.

Good Reason.
"Maria, you'll never be able to drive that nail with a flat-iron. For heaven's sake use your head," admonished Mr. Stubbs. And then he wondered why she would not speak to him the rest of the day.—Puck.

This Critical World.
It's impossible to please everybody, and if a girl has what we in our ignorance, consider a good figure the neighbor women say she is bumpy.—Ohio State Journal.

Sufficient Excuse.
Jimmie's teacher asked him why he was late, and he replied: "Nobody waked up, 'cause the wake-up bell in the clock didn't ring."

Moving-Picture Films.
Of the average moving picture film, 50 to 75 prints are made, but in the case of one of the most popular ones as many as 250 to 275 prints have sometimes been required.

BUSY THREE DAYS FOR GOVERNORS IN CONVENTION

(Continued From Page One.)

kota law is designed to provide state loans to prospective farm owners.

The Kansas industrial relation court, bitterly assailed by Samuel Gompers and other labor leaders and as ardently defended by its authors, will be discussed by Gov. Henry J. Allen. Governor Allen was the principal figure in the enactment of the law, designed to prevent industrial disputes and troubles. The topic will probably pave the way for a general discussion by the governors of the entire labor situation.

Gov. William C. Sproul of Pennsylvania will address the conference on "State Income and Disbursements."

He will take up in his paper means of providing money to meet increases in state expenses.

"The Budget and State Business Methods" will be discussed by Gov. John G. Townsend of Delaware.

The sixth topic scheduled for discussion will be "The General Agricultural Situation," phases of which will be taken up by Gov. John M. Parker of Louisiana.

AMERICA'S BIGGEST BATTLESHIP UNDER CONSTRUCTION NOW

QUINCY, Mass., Nov. 28.—The keel of the superdreadnought Massachusetts will be laid soon after New Year's Day, it was announced tonight at the Fore River plant of the Bethlehem Shipbuilding Corporation, Ltd. The Massachusetts will be larger than any vessel now in the United States Navy, of 600 feet length over all and 106 feet beam. Her displacement will be 43,200 tons. She will have electric drive and engines of 60,000 horsepower, and her speed is to be twenty-three knots. The armament will comprise twelve 16-inch guns and a secondary battery of sixteen 6-inch guns.

The keel of the Lexington, a battle cruiser, will be laid down after that of the Massachusetts. Her length over all is to be 880 feet. The Lexington's engines, of 180,000 horsepower, will yield a speed of thirty-five knots under electric drive. She will mount eight 16-inch guns and sixteen 6-inch guns, and also will have eight torpedo tubes.

The plant now is working on naval construction that will total approximately \$75,000,000.

DADDY'S EVENING FAIRY TALE

MR. AND MRS. ROBIN.

"I told you," said Daddy, "of the parent robins who had their nest under the eaves by a balcony where a lady used to sit most of the days sewing and reading."

"Well, after the little ones grew strong enough to go out with their family and by themselves they all did a great deal of marketing."

"Robins know where the best worms are to be found in the lawn, just as ladies know where the best lettuce is to be found, and which grocers have the best vegetables and which fruit men have the best fruit for sale."

"One day a man from the city came with his wife to visit the lady of the balcony. He was so glad to be where there was a lawn and green grass that he whistled for very joy."

"Mr. and Mrs. Robin put their heads on one side and listened and then put their heads on the other side and listened."

"Isn't it nice," said Mr. Robin, "to think he is enjoying it so?" "Ah, yes," said Mrs. Robin, "I fear sometimes we get a little selfish and forgetful of all the creatures who are not fortunate enough to have green lawns; and cool baths when it is dry weather; in little pans of water which are fixed here for us."

"We have so much that is lovely, and above, we can see the clouds moving along, going so rapidly along! After the rain they dash across the sky, clearing it all up for the fine weather, chasing the dark clouds away."

"It makes us sing when the sun shines and when the rain comes and cools off things. But I think, dear Mr. Robin, it would be nice if you sang one of your best songs for the city people."

"You could just let the city man, who is so happy at the sight of the country that he is whistling for very joy, know that even the little robins are glad to help make the holiday a pleasant one. Why don't you sing him a song?"

"I will," said dear, obliging little Mr. Robin.

"So he sang a song, and the man stopped whistling and listened, and then, when it was through, he tried to whistle notes as the robin had sung, and Mrs. Robin chirped and said: 'That is fine, fine. We love to hear you whistle and to hear the joyful sounds in your voice!'

"Do look around and see how the whole garden is welcoming you. There are the hens and chickens—not real hens and chickens, but the yellow flowers which are called hens and chickens. Don't they make the garden look lovely and old-fashioned and dear?"

"And there are the single pink roses and the white roses which were set out here years and years ago by a dear little girl who is now a grandmother with grownup grandchildren. Aren't the dear old-fashioned rose bushes she put out a very joy?"

"And while this month has been colder than it usually is at this time of the year, we haven't had to suffer with the heat and the flowers have all come out, helped by good Mr. Sun."

"If you look down the garden path you will find a great big rose—a beautiful pink rose—and around it are many little roses coming out. That is Mother Pink Rose and those are her little baby buds which are coming out soon, and there are four pink roses, great big ones, on the bush next to it."

"The gay yellow marigolds, so bright and happy, are coming out each day, and so are the nasturtiums of all colors, which make such lovely decorations and which look so gay."

"The poppies of many colors are blooming beautifully, if only for a short time, and the yellow poppies are nodding their heads and trying, too, to greet you."

"Soon," said Mr. Robin, "the tall white lilies will be coming out and adding more fragrance to the garden. They like to come out around the Fourth of July, to add to that great day."

"The purple Monk's hood flowers, which look like the Canterbury bells, are soon coming out, too, and the little bellies along the ground are saying how much they like the summer time, even if they do run chances of being used for food by other creatures."

"Ah, people from the city," Mrs. Robin said, "we greet you and are glad you can all look our best for us."

Any Cow worth keeping is worth feeding in summer

Profitable cows can't produce up to the limit of their capacity on grass, because grass is practically never balanced. A cow can't eat enough grass to get sufficient protein.

Purina Cow Chow

supplies the lacking elements, and enables the feeder to perfectly balance the grass ration, no matter how irregular the pasture conditions. This is done with ingredients that any expert will approve and practical dairymen know to be right.

Dairymen in all parts of the country have demonstrated time and again that

2 lbs. Purina Cow Chow makes the average cow on pasture produce at least **6 lbs. more milk per day** at an additional cost of about 6¢ per cow per day. Figure out what this would mean to you each month.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

DEMPSEY KEEPS SELF IN FINE CONDITION

"Well, I pile out about 6 o'clock and after some setting up exercises I do a turn through Central Park," he said. "Then a good breakfast and a rest of an hour or so and then a long walk. After lunch I go over to training quarters and put in two or three hours with the rope, the bells, the medicine ball, some shadow boxing and a few rounds with Bill Tate, Ray Smith and some other boys who come around at different times. I mix golf in every time I get the chance. It's great exercise and first class diversion."

Practically all the prominent fighters around New York occupy places of prominence at the weekly boxing shows in Madison Square Garden, but Dempsey is seldom seen there.

"I like to watch the boys," he explained. "But late hours and an evening in a smoke filled room do more harm than good."

Dempsey has a lot of personality. He has that happy faculty of meeting people well and remembering them the second time. He never "high-brows". He's accessible at all times and he'll dig in his pocket for any cause.

Talk with him for an hour and he will scarcely ever speak in the first person. He's no master of English but he's grammatical and he isn't handicapped with a lot of vulgar parables of the ring.

It's a hard task to get him to talk about any of his conquests. He always refers to one of his vanquished opponents as a "mighty good boy."

During one of his recent fanning bees with a bunch of admirers he listened with tolerant politeness to one who insisted on telling him how good he was, how he had picked him out to beat Willard in three rounds and how he was going to ruin Carpentier.

"Say," the champion interrupted, "seems to me you're a lot more sure about it than I am. I'm not so certain I'm going to win that bout. Carpentier is a great boy. He's bound to be a fighter with the experience he's had. I never pick a winner in advance on anything."

SLAN'S GOES RIGHT TO THE ACHING SPOT

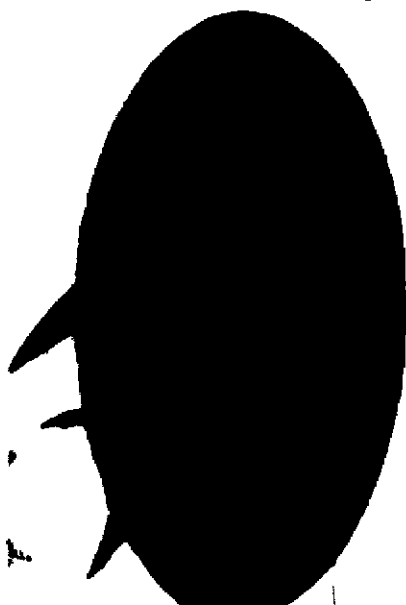

You can just tell by its healthy, stimulating odor, that it is going to do you good.

RED CROSS AIDS 15,000 TOWNS

Vast Number of American Communities Assisted.

MANY ACTIVITIES INAUGURATED

Thirty-five States, Pennsylvania Among Them, Officially Working With Red Cross.

The activities of the American Red Cross for the fiscal year ending June 30 last fulfilling the peace time obligations of its congressional charter by "mitigating suffering caused by disaster and pestilence, and in devising and carrying on measures for preventing the same," touched, in some form, more than 15,000 American communities.

During the year a Red Cross Department of Health Service has been organized; its Nursing Service has been extended to meet a growing demand for public health nursing until over 38,000 nurses are now on its rolls; its First Aid to Injured courses have been widely taught, 6000 persons having been awarded First Aid Certificates during the year; and the American Red Cross has been the chief factor in the formation of the League of Red Cross Societies with headquarters in Geneva.

The Department of Health Service was established December 1, 1919. On June 30, 1920, there were in active operation 128 Health Centers, from which radiate innumerable activities designed to improve the health of the community and prevent the spread of disease, while 455 Red Cross Chapters were actively engaged in disease-preventive work.

The Bureau of First Aid to the Injured has issued 6000 certificates to those who have taken regular courses and awarded 485 medals. Ten First Aid contests have taken place in various states, 1500 medallions have been distributed and 775 junior members have been awarded emblems.

Life Saving Service.

The Life Saving, or Water First Aid service has been extended during the past year by the addition of twenty-nine Red Cross Life Saving corps and the enrollment of 1500 new members, of whom 508 are women. There is now a complete woman's corps in this branch of the service.

The Health Department also includes a Bureau of Medical Social Service, which had under its supervision June 30, 1920, 312 Red Cross employees, serving 52 Public Health Hospitals. Of this number 125 are hospital social workers, and during the year 30,422 patients have received from this bureau some form of Red Cross service.

In the Department of Nursing, the fiscal year was one of transition from military to civil activities. Of the 904 nurses attached to the various American Red Cross commissions in Europe when the armistice was signed, all but 116 had returned to the United States by June 30, 1920. Of those 69 were in Poland, 46 in the Balkans, two in France and two in Bohemia. Six scholarships have been established at King's College.

Nursing Enrollment.

Enrollment in the Red Cross nursing service increased during the year from 35,428 to 38,705. On June 30 there were in active service 304 in the army, 321 in the navy and 443 in the Public Health corps.

In order to increase the number of qualified public health nurses, for which there is urgent demand, 268 scholarships have been established and 37 loans have been made from National Fund to public health nursing. In addition, approximately 250 scholarships have been awarded by the various chapters. Funds have also been given to the University of Minnesota, Peabody College, Tulane University, University of Louisville, and University of California.

Development in class instruction in Home Hygiene and Care of the Sick has increased three-fold during the fiscal year, the number having increased from 34,068 to 88,068. During June, 1920, 2000 nurse instructors were conducting classes.

Activities of the Bureau of Nutrition Service include the maintenance of a reserve of home economics women qualified and ready to serve in the event of war, and the promotion of the course of instruction in food selection, nutrition classes for undernourished children and the hot school lunch. During the year 2587 enrolled in this service, 500 as hospital dietitians and 1878 as instructors. During the fiscal year a text-book upon this line of work has been issued and 1488 students have been certified.

One of the important results of the work done by the Red Cross Health and Nursing Departments has been that 85 states have practically adopted a uniform method of working in connection with the Red Cross, whereby a bureau of public health nursing has been instituted under the direction of the State Public Health officer.

The part which the American Red Cross took in the organization of the League of Red Cross Societies was purely educational; but in this way it aimed to extend the distress preventive and constructive brotherhood throughout the world.

Pathe Sapphire Ball

The "Scientific American" rightly says, "to have proper tone rendering, the stylus or needle must fit and fill the slot exactly; if too small, it will be thrown from side to side, giving false tones; if too big, it will give trouble by jamming, and causing premature wear of the record." A steel needle wears out the record as quickly as it wears itself out and never fits the slot. The Pathe Sapphire Ball never wears out the record and always fills the slot.

MORRISDALE
STORE BURNED

only a short time in reaching the scene. But the fire was then roaring like a furnace. The flames ate up the dry wood interior, the pine lining and stock shelves as though they were flimsy paper. It became apparent that nothing could save the store building, and the firemen and employees of the company directed their efforts toward preventing the heat from setting the other nearby buildings on fire.

Because of no available water supply, the reservoir being too far away the firefighters worked under great difficulties, and attempts to save the butcher shop, supply house and ice house had to be abandoned. A claim on reservoir in the house occupied by the families of Mr. Maxwell and Mr. Pennypacker furnished the only water that could be obtained.

The loss of the store building and the stock of merchandise is estimated at \$70,000. The amount of insurance carried could not be ascertained, as the insurance was handled through the Philadelphia office of the company. The smaller buildings and their contents destroyed entail an additional estimated loss of \$5,000 not including the equipment and meat stock owned by Mr. Mellin. The latter estimates his loss at \$1600.

The company store at Morrisdale was one of the best in the entire Clearfield coal region, and the average monthly volume of business amounted to \$15,000. Officially the store end of the corporation was known as the Morrisdale Supply Company. Eight people were employed in it.

A new building will be erected on the site of the ruins at the earliest possible date, and it is understood a building for the meat market will also be erected. An effort will be made to start the store, and likely the meat market, in temporary quarters at once.

Sulphur Is Best
To Clear up Ugly
Broken Out Skin

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little of Mentho-Sulphur may be used like cold cream.

DAD AUTO SMASH AT LATROBE

LATROBE, Nov. 30.—One man was killed and five seriously injured last night when a shifting engine on the Whitney Branch of the Pennsylvania railroad at Whitney crashed into an automobile. The dead man was John Moser.

Shared Pains With Patient. It is said that virtually all the pains to which the people of Lancaster and Fletcher are attached were written by Fletcher alone. Beaumont was a friend of Fletcher's and read with him, they had a kind of David and Jonathan affection for each other, and Beaumont's name is said to have gone on the plays more for sentimental reasons than for any other.

For an
Electrical
Christmas

HAPPY indeed is the woman who receives electrical gifts on Christmas morn. An electric toaster, a vacuum cleaner, an electrical washing machine or iron, an electric grill or percolator—every article named will be most pleasingly received. Profuse thanks will accompany such gifts for their beauty, serviceability and labor-saving.
